OUR ULTRA FLAT SOLUTION FOR CONCRETE POOLS

Ultra flat and stylish finish for concrete pools using our specially designed installation kit. Depending on the finish of the pool, tiles or liner, a specific installation kit is available.

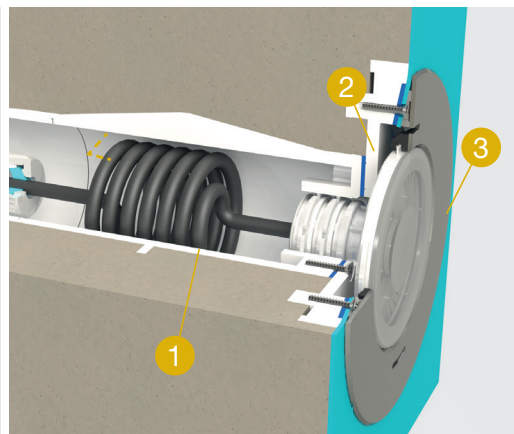

Installation kit for tiles/mosaic

PZAXXX-CT

Screw the stainless steel niche flange to the VISION Wall Conduit 1,5". Place the tiles against the edge of the niche flange. Click the light into the Face Plate Ultra Flat and push it into the wall conduit.

Installation kit for liner

PZAXXX-CL

Take the VISION Wall Conduit 1,5", place the gasket and the polymer niche flange on top, screw it all together. Finish the pool construction and place the liner. Put the stainless steel mounting ring on the liner with a gasket in between. Screw everything into the polymer niche flange for a watertight finish. Click the light into the Face Plate Ultra Flat and push it into the wall conduit.
